

# What is the Future of Music?

## Education, Research and Advocacy for Musicians

Future of Music Coalition is a national non-profit that seeks a bright future for creators and music fans.

**We organize events** that bring hundreds of musicians, technologists, attorneys, policymakers and industry representatives together for cutting-edge discussions about the changing music landscape. In addition to our annual Future of Music Policy Summit, we organize Policy Days, panel discussions, musician-education events, briefings and class discussions. Sign up for our events newsletter at [www.futureofmusic.org/subscribe.cfm](http://www.futureofmusic.org/subscribe.cfm)

**We distill and translate information** for musicians. FMC's website is packed with articles, fact sheets, interviews, testimony, letters to Congress, and research reports on everything from major label contracts to media ownership. Access articles and fact sheets at [www.futureofmusic.org/articles/](http://www.futureofmusic.org/articles/)

**We keep musicians informed** about the changing music landscape. FMC's monthly newsletter includes breaking news and information about the policies and technology developments affecting musicians, as well as advocacy campaigns, articles and upcoming events. Sign up for the newsletter at [www.futureofmusic.org/subscribe.cfm](http://www.futureofmusic.org/subscribe.cfm)

For a daily fix of info on the issues that affect the way you create, distribute and listen to music, check out the FMC blog:
